Sandwich West Water Supply Low at Times

Inadequate mains in Sandwich West Township, which gets its water from the plentiful Windsor Utilities Commission water division, are the cause of their recent water shortage.

The Sandwich West Council, meeting in emergency session Sunday, August 30, voted down a proposal by Maynard Totten, chairman of the utilities commission, that restrictions on lawn watering and car washing be imposed. However, by Wednesday, September 2nd the council found it necessary to impose these restrictions.

LA SALLE COUNCIL MEETS

The regular meeting of the Tuesday evening, September 1st. Mayor Herbert Runstedler, councillors Ed Lovell, Leon Martin, Gordon Reume, Jack Trotter, and the assistant town clerk, Ted Seewald, were in attendance.

The new pump for the fire La Salle Council was held department will not be ordered until the 33 acres of land near the golf course is sold, as the proceeds from this sale are required for the purchase of the new pump. An offer to purchase this land for \$3,300 was received from Dr. A. Jung. Dr. Jung is to be advised that a settlement must be made within ten days, otherwise the council will sell to the next highest bidder.

A representative of C. E. Hickey and Sons Limited discussed the many special features of their pump. The council will purchase the pump from one of the following: Bickle-Seagrave Limited, La France Fire Engine and Foamite Ltd., or the C. E. Hickey and Sons Limited.

Mr. Henry Seewald, plumber, suggested that a bylaw be passed whereby all plumbing would have to be approved by a plumbing inspector. This would benefit the home owner, and protect the plumber. Mr. J. Wells is to write the Department of Health for the provincial regulations plumbing code. This will be discussed further at the next meeting.

It was approved by the council that Mrs. Marie Le Claire be granted a permit to move her house a distance of approximately thirty feet on Reume Road. Mrs. Le Claire plans to make an addition to the house immediately in order

to conform with the required number of square feet.

Eleven complaints were received from residents living behind the Sunnyside Hotel, regarding the foul odour caused by the stagnant water. As long as these residents would agree to absorb all expenses involved, the council would be glad to assist in any way.

Application to purchase lots Nos. 24, 25, 26, 27, Plan No. 848, on Delaware avenue, was made by Paul Pajot. These may be purchased at \$150 per lot. Ernest Meloche made application to purchase lots Nos. 32, 33, 34, Plan No. 844, on Reume road, at \$125 per lot. Application to purchase lots Nos. 337, 342, 344, Plan No. 777, on Maple street, and lots Nos. 174, 176, 184, Plan 854, was made by Vital Benoit. These may be purchased for \$100 per lot. The La Salle Public Utilities Commission made application to purchase lot No. 26, Plan No. 1174. The council will hold this application.

The next regular council meeting will take place on Monday, September 21st.

PRECAUTION AGAINST FIRES

The town of LaSalle is now facing its third month without the protection of its local fire department. The LaSalle pumper is unserviceable.

Our fire department was called to extinguish a grass fire last week on Michigan and Maple, an area where several new homes are under construction. The department was fortunate enough to extinguish this fire with brooms and shovels as their only aid.

Last Saturday afternoon, a second fire took place. This time at the home of Mr. Steve Zojac on Matchet road, near the golf course. The Zojac family was in Windsor when a neighbour, Mr. Homer Lepine, observed smoke and flames in a shed 20 feet back of the garage which was only 9 feet from the Zojac home.

Mr. Lepine called the LaSalle Fire Department, and then attaching a garden hose, commenced to extinguish the fire which had by this time progressed to the garage. Shortly, the LaSalle Fire Dept. arrived with only two 2½ gal. extinguishers with which to combat the fire. The shed was completely destroyed, while the garage was saved.

It is obvious that had the garage burned, the home would have been in a disastrous position. The nearest hydrant was three-quarters of a mile from the Zojac home, so without a pump and booster tank, very little could have been done to save the house, had it caught on fire.

The need of a new pumper is urgent. Your home could possibly be destroyed by fire before the Windsor Fire Department could arrive. You are cautioned to use every precaution to guard against fires.

The delay in purchasing the new pumper is due to the lack of funds. In order to raise the required amount, the town plans to sell thirty-three acres of land and to borrow the remainder of the money from the bank. The sale of this land is still not completed. Would it not be possible to borrow the entire amount from the bank, purchase the needed pumper, and repay the bank when this land is sold?

And will the individual's fire insurance premium be increased if this delay continues?

Let's hope our new pumper is ordered within the next few days as delivery will be thirty working days from the order date.

Once again, citizens, you are cautioned to take every precaution to avoid fires during this critical waiting period.
